## Recycling Cart Upgrade Pilot Program 2012

Please respond by March 27

Deer Park earns a rebate from recyclables and has used these funds to pay for new park benches. Some residents have indicated that they need a larger bin for recyclables. Currently, you have a larger cart (95 gallon) for regular waste and a smaller cart (65 gallon) for recyclables. Please review your household's needs for Groot garbage collection bins. If you want to make an upgrade, you now can do so with this program at no additional cost to you or the village.

*Which option below best meets your household's needs (Check either A or B):*

**A \_\_\_\_\_ SWAP LIDS (larger bin for recyclables and smaller bin for regular waste)**

**Description:** Groot will swap lids to convert your current carts. Specifically, your larger cart would become your cart for recyclables and would have a new beige lid. Your smaller cart would then be used for regular waste and have a black lid. *Please consider if a 65 gallon cart is sufficient to meet space needed for your regular waste for most weekly collections.*

**B \_\_\_\_\_ EXCHANGE SMALL RECYCLING CART FOR LARGE RECYCLING CART**

**Description:** Groot will replace your current 65 gallon recyclable cart with a 95 gallon cart with a beige lid (limited to the first 100 households requesting). Your current larger cart for regular waste remains as is.
