## **CONSTRUCTION NOTICE**

### **2019 ROAD PROGRAM**

**Dear Resident of:**      **N. Pheasant Trail (Teal Court to Cuba Road)**  
**Teal Court**  
**East/West Mallard Court**  
**Thrush Court**  
**Quail Court**  
**Sumac Court**  
**Bobwhite Lane**

**Re: ROADWAY RESURFACING**

**A contract for road resurfacing of the above mentioned streets will start on May 13, 2019 pending normal temperatures and no precipitation.**

Construction activities will be as follows:

1. The contractor will do some culvert replacements before resurfacing
2. The contractor will install a culvert at Mallard Court West, N. Pheasant Trail, Teal Court, and Sumac Court. You will be notified 24 hours prior to that operation.
3. The contractor will mill (grind off the top 2.5") the existing roadway. Access will be limited on each street when that occurs. Typically there will be a large milling machine and 2 or 3 semi trucks taking the asphalt grindings away. This is a moving operation, so disruptions for driveway access are usually of a short term.
4. After the pavement is milled and inspected, it is then prepared for the new asphalt surface. This operation involves placing "hot prime oil" on the milled surface and a 1" lift of new asphalt is placed to level the existing pavement.
5. When that is completed, a final surface course is placed and construction is complete.

Residents should have access to return to their houses at the end of each day, unless a serious complication arises.

If you have any immediate questions or special concerns or needs, you may contact Owen Wattelle, Resident Engineer, at **847-951-0691**.
